

Software companies are always looking for 4 things: **profitability, simplicity, customization and integrated payment solutions.**

Congrats, you found them!

1 Profitable.

Once integrated with Usio, you earn revenue on all payments flowing through the platform. Imagine 800 of your users process \$20,000 each per month in payments for a total of \$16mm. This \$16mm turns into a net take-home income of **\$64,000 per month for you.**

2 Simple.

Avoid risk, hassles and the expense of trying to process payments for your customers on your own. Before you can even get started, **the cost to become a Payment Facilitator is estimated at \$2.9mm.**

3 Customizable.

Offer customized payment solutions that your customers will love through the Usio suite of APIs. We guarantee lower processing rates, secure PCI compliance and more.

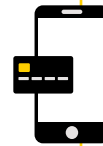

4 Integrated.

Usio solutions include the unique ability to onboard 1,000s of customers at once, support to help launch your payment services, professional marketing staff and on-going payment support for your customers.
